Introducing OSBOS

OSBOS helps to grow our clients' brands, sales and profits with our targeted strategy, business development and multimedia marketing. We identify opportunities, build relationships and win business by rethinking the norm, finding new customers and selling more.

We specialise in developing B2B SMEs, launching new products, entering new markets and growing exports. Our team are pros at opening doors with leading brands, retailers and associations and together, team their business development, marketing and exporting expertise to guarantee maximum impact. Our fine-tuned methodology achieves measurable results and has been proven to generate profitable growth to our clients' bottom lines and deliver exceptional return on investment.

OSBOS provides a plug-in outsourced service for businesses who want to grow – and it really works. We partner with you on a flexible basis to deliver a low-risk solution to taking the growth leap that'll transform your business, helping you to overcome the many obstacles that are part of the deal when it comes to success.

This is just the start of what OSBOS can do and we'd love to hear about your business, its vision, unique challenges and of course, how we can help you to grow. Keep reading for more about our outsourced services and results and if you like what you see, please start the conversation with us by calling +44 (0) 1606 822606 or emailing hello@osbos.co.uk

Outsourcing Your Sales

Our scalable outsourced sales and business development solutions find your B2B SME perfect-fit customers for profitable business, helping you to sell to new buyers and markets and make more revenue from your existing customers.

Outsourcing your sales requirements to OSBOS takes away the headaches SMEs and business owners experience when making a growth leap. We deliver consistent results without the risks of hiring internally – from recruitment costs to training, and employee skill shortages to time to market delays.

You may also be paying a high-value salary to your strongest salesperson who is too tied up in prospecting, or want to run flash campaigns for new products that don't justify a risky new hire on payroll.

Our proven methodology, sniper research, experienced salespeople and top-level business development specialists provide your business with plug-in talent, infrastructure and resource to grow your brand, sales and profits. We make real impact to your top and bottom lines and generate significant pipeline growth, providing the outsourced support you need at every stage of the funnel.

Outsourcing Your Marketing

It's essential to constantly market your business for brand awareness, recognition and recall – ensuring that you're in front of your ideal customers when they're ready to buy, and that you're the first name that comes to mind if they need a little more time or persuasion.

You'll also regularly need to ramp up output (for example, during key buying seasons or when you launch a new service) and potentially run professional campaigns you couldn't forecast for.

This all means that direct employment can be a big risk and significant cost to your SME. Your in-house team may not have the skills to achieve the results you need and your resource bottlenecks may be temporary, meaning that hiring for every new campaign is simply not an option.

With OSBOS' scalable outsourced marketing campaigns you get immediate access to our specialist team of strategists, data analysts, designers, content writers and digital creators right when you need them.

This helps reduce your time to market and any inflated spend on hiring or temping, reducing risk across your entire business. You can have as many marketing campaigns as you require and plug us in and scale us up as you grow.

Our experienced team knows exactly how to create and roll-out strategic, creative and effective commercial marketing campaigns that work to keep your top of the funnel full and sales targets on track.
